

## Scholarship Essay

First, I just want to start by saying thank you so much for considering and awarding me this scholarship. I am so appreciative of this opportunity and very excited because it is a wonderful start for my college funds. It is nice to know that I have even more support that believes in my future college life/ career. After graduating high school with my high school diploma and associate's degree I plan on attending a 4-year university to finish another 2-years to obtain my bachelor's degree. During college, I plan on continuing to major in business and learn everything along those lines to educate me on how to be successful and perhaps eventually owning my own company. I don't know exactly what career I want to go into after gaining my bachelor's, but I know it will be in the business field. The great thing about majoring in business is that there are plenty of positions I get to choose from after graduating. I have been looking into a few careers in this field like human resources, marketing, and retail. But I am a big people person so I am starting to look at more careers that involve interacting and working with others. Getting awarded this scholarship allows me to achieve my goal of getting my bachelor's. This is the start of my college funds to send me to a university for another two years. But not only is this the beginning of my funds but it's also a great reminder that there are so many people that see potential in my future and believe that I can become a successful working individual. As I stated before I am so thankful that I have been given this opportunity of being supported and helped for college. I am also so thankful to the community around me for being so hopeful in their youth because without this support it would not be possible for me to be so successful at this age. I was set up well and recognized that not everyone gets the same opportunities as me, which makes me appreciate everything that I have in life. Additionally, I realize how important it is to say thank you to the people who have gotten me this far and how important it will be to thank people in the

future who help me get through those times. I truly am blessed and God has gotten me through a lot, and this scholarship is one of the things that has reminded me of that every day.
